

Database IEEE Xplore - Journals

Design / Architectural Design / Computer-Aided Design

[IEEE Transactions on Very Large Scale Integration \(VLSI\) Systems](#)

Manufacturing, Process design, Research and development, Computer science, Design methodology, Design automation, Design methodology, Space exploration

[IEEE Access](#)

Layout, Three-dimensional displays, Convolutional neural networks, Virtual reality, Human computer interaction, Heating systems, Optimization, Machine learning, Temperature measurement

[A Deep Learning-Based Method for Heat Source Layout Inverse Design](#)

[Lowest-Technical-Merit Design Methodology of Hypersonic Cruise Vehicle](#)

[Webvr Human-Centered Indoor Layout Design Framework Using a Convolutional Neural Network and Deep Q-Learning](#)

[IEEE Transactions on Industry Applications](#)

Design engineering, Design automation, US Department of Energy, Production, Productivity, Process control, Product design, Design methodology, Manufacturing processes, Home appliances, Milling machines, Machinery, Manufacturing, Footwear, Cement industry, Product liability, Manufacturing processes, Business, Packaging, Design engineering, Raw materials, Assembly, Design methodology

[Efficient engineering through computer-aided design of experiments](#)

[Modern tube mill design and its influence on maintenance requirements](#)

[Product liability and the plant engineer: an introduction](#)

[IEEE Transactions on Circuits and Systems for Video Technology](#)

video coding, data compression, image coding, computational complexity, image sequences, learning (artificial intelligence), motion compensation, image reconstruction, image colour analysis, image resolution, image matching

[IEEE Transactions on Education](#)

Design engineering, VLSI, educational courses, computer aided instruction, teaching, engineering education, student experiments, further education, educational institutions, education, laboratories, digital simulation, distance learning
